Ajinkyatara Madhyamik Vidyamandir, Shahunagar, Shendre, Satara, Maharashtra

ACEDEMIC PROJECTS

Covan AI – Legal Document Assistant

- **Developed full-stack web applications**, including a secure legal agreement management platform featuring an integrated legal chatbot and a complex text simplifier for enhanced document clarity.
- **Engineered end-to-end event management systems** with dedicated admin dashboards and user registration portals, automating workflows via QR-based coupon scanning and instant confirmation emails.
- https://coven-ai.vercel.app

Event Management System (Admin + User apps and Website)

- **Developed a dual-platform Event Management System (Admin & User)** to centralize event bookings, announcement publishing, schedules, and user registration portals.
- **Engineered a secure check-in and communication workflow by** implementing a one-time-scan QR coupon system paired with automated confirmation emails to streamline event coordination.
- https://dnyanthon-eight.vercel.app

Ingrezy – Recipe-Based Grocery Delivery Application

- **Developed a recipe-based grocery delivery application using Flutter and Node.js** that enables users to discover recipes, view required ingredients, and order groceries through an integrated shopping cart.
- **Engineered dynamic ingredient management and shopping cart functionality** by implementing serving-based quantity calculations, ingredient selection, and RESTful APIs with MongoDB Atlas and Prisma ORM.

FREELANCING PROJECTS

Car Style Studio (Live Project)

- Developed dual-platform web applications (Admin & User) for car care services, integrating comprehensive service options like washing, detailing, and polishing packages.
- Engineered an end-to-end booking ecosystem featuring Google Maps location services, secure database management for admin oversight, and automated customer notifications via WhatsApp and email.
